"SOLAR SQUARE" Tree grid	Drawing code:		Designer: C+S Architects
.	Revision:	10/01/2019	0+0 Altimetia
	Product:	Square tree grid model "SOLAR SQUARE", composed by two plates with radial holes to ensure the water flow to the plant's roots. The plates' alignment is guaranteed by a frame fixed to the underpinning. The tree grid is tested for a pedestrian load stress, as for example A15 regulation.	
	Dimensions:	length: 1500mm; width: 1500mm; maximum height: 74mm; total weight: 162kg;	
	Material:	The plates are manufactured in UTC® (Ultratense Concrete®), a material belonging to the UHPC class (ultra high performance concrete); a high performance concrete material made by Bellitalia® and supplied in different colours: blue, white or different colours (see data sheet).	
	Reinforcing:	No reinforcing.	
	Finishing:	covered with a transparer request, with nanotec products. All metallic pa	natural; visible surfaces are ht anti-decay coating, or, upon hnology and/or anti-graffiti rts are treated by a hot dip are rounded or made blunt. aterial sheet).
	Handling:	Use appropriate equipme	nt when handling.
	Installation:	Place the plant and prepare a perimetral, levelled underpinning; then place the frame, fixing it with lean concrete. Insert the plates. The frame needs to be placed on a surface in mortar or concrete perfectly levelled on the four sides, without leaving any free part. In any other specific case, please contact Bellitalia® explaining the expected modifications. If the tree grid is used without frame, put a soft material under the grid and then proceed with the installation, carefully positioning the sectors.	
	Notes:	micro-cracking, different s oxides, are natural pheno manufacturing and matu shown in the samples is j shades of colour shall not of the product. Bellitalia demands for damages re they belong to the mater	and finishing, as for example shades on surfaces or rising of omena related to the products' uring processes. The colour ust approximate, and different be intended as nonconformity a will not accept claims or lated to colours variations, as rial's inner characteristics and ntal conditions during the ng processes.
