

“TRI” Litterbin

Sheet code: **CEAR017**

Drawing code:

Revision:

25/09/2018

Designer:

Bellitalia Design Department

Product:

Litterbin model “TRI”, made of a monolithic element equipped with three doors with hinges and three internal bins for recycling.

Dimensions:

length: 1100 mm;
width: 500 mm;
height: 1100 mm;
total weight: 390 kg;
capacity: 60 x 3, 180 litres.

Material:

The external structure can be manufactured using reconstituted natural marble stones or white granite/grey conglomerate. The internal bins and the doors are made of steel. The litterbin is equipped with a stainless steel ashtray, perfectly integrated on one of the three doors.

Reinforcing:

The bin and the covering are reinforced and fitted with bushes that permit lifting and fixing.

Finishing:

All concrete visible surfaces are sandblasted and then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All edges are rounded or made blunt. The covering and all steel parts are treated by a hot dip galvanisation and painted RAL7021, or, upon request, in other colours. The doors for separate recycling collections can be painted in different colours. Specific labels are applied to identify the correct position of the waste.

Handling:

Use appropriate equipment when handling.

Installation:

Simply place on the flooring.
