

Max Dimensions:

Height: 748,5 mm | Width: 510 mm | Length: 1500 mm

**Description:**

The structure of the bench consists of 2 solid end supports in galvanized steel and then polyester powder coated avec ral colors at choice. On the legs, characterised by "Art deco" style notching, wood bar of the seat and of the backrest are fixed. Every leg consists of a side in steel EN10111DD1, diameter 60/10, on which profiles (D. 60/10 and 30/10) are fixed. Under the wood bars of the bench, there are plates in galvanized steel (60/10 thickness), provided with holes (D. 6mm) for their fixing through appropriate screws. The fixing to the ground takes place through bolts (not provided) inserted in the 4 holes (D. 10mm) of the legs.
