Max dimensions:

Height: 420 mm | Width: 400 mm | Length: 1600 mm

Weight: 46 kg

**Description:**

The Morphscape bench plays on the soft undulating pattern and the hard graphic definition of the form. The grid expands and contracts to create a simple yet stunning visual that defines and mutates the perception of the bench. Morphscape Bench is made of 3 elements welded together, made in steel sheet, 80/10 thickness. On the lower part there are 4 holes (11 mm diam.) For the fixing to the ground through specific bolts (not provided). For the realization of this product, Steel EN10111DD11 is used and later treated with a cycle of sandblasting, cataphoresis and powder coating. Such cycle is meant to guarantee the protection of the painted products, in an environment of C4 corrosion class, as requested by the UNI regulations EN ISO 12944-2. The products are eventually polyester-powder coated with RAL colours at choice.
