

“ARROW” Bench

Sheet code: PAAR092

Drawing code:

Revision: 15/01/2019

Designer:
C+S Architects

Product: Bench model “ARROW” composed by a monolithic, arrow-shaped seat. The bench can be fastened to the flooring for enhanced stability and security.

Dimensions: length: 2666mm;
width: 1495 mm;
height: 400 mm;
total weight: about 834 kg.

Material: The bench can be manufactured using reconstituted natural marble stones or white granite conglomerate.

Reinforcing: The bench is reinforced and endowed with bushes that permit its lifting and that are covered with a Bellitalia plate after the placement.

Finishing: All surfaces are sandblasted, except for the seating surface that is polished, to give the product a shiny effect. Surfaces are then covered with a transparent anti-decay coating, or, upon request, with nanotechnology anti-graffiti products. All edges are rounded or made blunt.

Handling: Use appropriate equipment when handling.

Installation: The bench must be placed on a perfectly flat flooring, made of concrete with a minimum compressive strength of 20 MPa. Fastening with threaded bars and bi-component chemical anchors is recommended. The bars must enter at least 150 mm. in the concrete part.

possible holes to be made on the support base
