Reinforcing:	The base is reinforced and fitted with bushes that permit its lifting and levelling. The bin is reinforced and fitted with internal bushes that allow its lifting, and an external bush to support a Bellitalia plate.
inishing:	The bin surfaces are sandblasted and then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All edges are rounded or made blunt. The covering is treated by a hot dip galvanisation and painted, the internal bin and the levelling stirrups are only treated by a hot dip galvanisation.
landling:	Use appropriate equipment when handling.
nstallation:	Level the base's screws and place the litter bin.
	andling:
